VIJENDRA SINGH

Junior Full-Stack Developer · Django · React · Next.js

Wellington, New Zealand | NZ Permanent Resident (no work restrictions) | Full NZ Driver's Licence
singh.vijendra05@gmail.com | +64 21 055 5474 | Portfolio | GitHub | LinkedIn

PROFESSIONAL PROFILE

Full-stack developer with a Bachelor of Applied Information Technology (2026) and currently studying towards a Master of Information Technology (Level 9). I build web and mobile applications using Django, React, React Native and Next.js — including Navya, a live, AI-powered learning platform I designed for students. Currently interning as a Django developer delivering a student attendance and information-management system. Backed by 15+ years of professional experience in accounts, operations and client-facing roles, I bring strong analytical thinking, advanced Excel/VBA automation and proven problem-solving to a technical team. A fast learner who enjoys new challenges and takes pride in building practical, user-focused solutions.

TECHNICAL SKILLS

Languages: Python, JavaScript, HTML5, CSS3

Frameworks & Libraries: Django, React, React Native, Next.js 13, Bootstrap, Tailwind CSS

Databases: PostgreSQL

DevOps & Deployment: Docker, DigitalOcean, Vercel, Git & GitHub

Security: Ethical hacking, cyber security fundamentals

AI & Developer Tools: Ollama (self-hosted LLMs, Microsoft Phi model), AI integration, Claude Code (AI-assisted development), VS Code

Data & Productivity: Advanced Excel with VBA automation, MS Office suite, Tally

Also: Responsive web design, computer hardware & troubleshooting, quick to learn new tech

SELECTED PROJECTS

Navya — AI-Powered Learning Platform — live educational web app that uses a self-hosted LLM (Ollama / Microsoft Phi) for student profiling and personalised learning, with quizzes and assignments across maths, science, coding, English and more; built with Django and PostgreSQL Live

Portfolio Website — personal developer portfolio showcasing projects and skills, built with React/Next.js Live · Code

Sono Amore — Music App — music application with a Node.js, Express and MongoDB backend, featuring user authentication and full CRUD operations Code

KiwiFeeds — restaurant rating web application built with Django, developed as a team project with user authentication and permissions Code

HomeQuest — property-search mobile app built with React Native Code

GoNZ — Travel Website — travel web application built from the ground up with Django and Python, featuring authentication and group-based permissions Code

EDUCATION

Master of Information Technology (Level 9) — *In progress, commencing July 2026*

Bachelor of Applied Information Technology — *Completed 2026*

New Zealand Diploma in Software Development (Level 6) — *Completed*

New Zealand Certificate in Information Technology (Level 5) — *Completed*

CERTIFICATIONS & MICRO-CREDENTIALS

Cyber Technician — *Micro-credential, 2024*

Ethical Hacking — *Micro-credential, 2024*

WORK EXPERIENCE

Django Developer Intern — Whitecliffe School of Information Technology, Wellington *Dec 2023 – Present*

- Developing a student attendance and information-management system in Django, enabling staff to record attendance, track student progress and manage records through role-based user interfaces.
- Working within a development team using Git/GitHub version control, translating requirements into working features.

Parking Enforcement Officer — Wilson Parking, Wellington *May 2022 – Present*

- Operate automated, real-time parking-enforcement technology, processing computer-generated data on the spot to apply parking regulations accurately and fairly.
- Maintain strong attention to detail, compliance and professionalism while handling live data and public interactions.

Real Estate Consultant — Realty Redefine, Delhi, India *Jun 2018 – Mar 2022*

- Built automated Excel/VBA tools for web and social-media advertisement posting, bulk messaging/emailing, automated calling and data entry — significantly reducing manual, repetitive work.
- Managed a large property database (commercial and residential) with accurate, up-to-date listings for clients and broker channels.

Transaction Manager — Commercial Leasing — Leasing India Pvt. Ltd., Gurgaon, India*Jul 2013 – May 2018*

- Leased commercial office, warehouse and factory space to national brands including Kyocera, Havells and others, managing the full transaction cycle.

EARLIER CAREER (2004 – 2013)

Progressive roles in sales, marketing, project management, accounting and administration across the real estate, education and finance sectors in India — including Sales & Marketing Manager, Project Manager and Accounts/Admin Manager. Highlights include leasing ~90,000 sq ft of retail/commercial space to major brands, and implementing financial-tracking systems that reduced operating expenses by around 20%. This background built strong foundations in financial accuracy, budgeting, stakeholder communication and team leadership.

KEY TRANSFERABLE STRENGTHS

- Data handling & accuracy — years of financial reporting, reconciliations and real-time data processing.
- Process automation — advanced Excel/VBA to automate repetitive business tasks and improve efficiency.
- Communication & stakeholder management — extensive client-facing sales, leasing and consulting experience.
- Adaptability — successfully transitioned into software development after relocating to New Zealand.
